# CUSTOMIZED OPTIONS

We can provide a variety of covering materials, including genuine leather, PU leather, microfiber leather, fabric, and velvet, for customers to choose from. We can also customize the dimensions of your bed and mattress according to your specific requirements.

As most of our products are handmade, there may be slight discrepancies in dimensions compared to the catalog. Therefore, to ensure precise matching of the product you desire, we recommend confirming the materials and dimensions with our sales colleagues in advance when placing an order.
